- Heavy-Duty !

The AnyGrip-mounting adapter series convinces with its high quality. An important factor when handling expensive devices in cars.

This rugged mounting unit enables a secure and consistent fixation of all TFT-Displays with metal-bar on almost any surface. The mounting unit can be adjusted stepless at 2 axis. The high-class working of the unit also allows the mounting of very heavy devices like for example TFT displays with up to 12 inches screen size or UMPCs.

- Particularly suitable for mounting at windows
- Suitable for touchscreen displays
- Suction happens comfortably by using a lever
- Holds up to 27 kg !
- Max. metal bar opening width : 7,25mm

Scope of supply:
- Suction mounting unit

Compatible a.o. with these devices :
- CTFPND-6
- MIMO UM720-F
- CTF-displays (except Open-Frame and CTF1210)
