- Locking cradle
- Waterproof connector
- Professional in-vehicle use
- Rugged vehicle mounting

The CRD665-LOCK is a locking cradle for the Topicon MDT665. It is designed for professional in-vehicle use and provides secure retention of the device.

The waterproof connector supports operation in demanding environments. Its locking design is especially useful in applications where the device should remain secured in the vehicle.

A rugged solution for fleet, service and industrial applications.

Compatible with: Topicon MDT665
