- Vehicle cradle for MDT1080
- CAN bus connection
- RJ45 and 2x USB-A
- Ignition-controlled charging

The CRD1080-CAN is the vehicle cradle for the Topicon MDT1080 for connection to the vehicle CAN bus. It serves as a vehicle mount and as a docking station at the workplace.

The back offers an RJ45 Ethernet port, two USB-A 2.0 sockets (OTG) and a USB-C port for charging. A switch in the cradle selects whether charging is always on or only with the ignition on.

With the recommended cable set CAB-865-2RS232 + CAB-EX-RS232 + CAB-BMW-CAN + CAB-EX-BASIC 2x CAN bus, 2x RS232 and 5x GPIO (3 inputs, 1 output, 1 analog input) are available; power comes from the vehicle (9 to 36 V, ignition). The cable set is not included.

Compatible with: Topicon MDT1080
